SPI No. 66

STANDARD PLAN INFORMATION NOTICE

Architecture, Engineering and Construction Division

This notice provides new information that may be helpful in your work with the standard plan program. Please carefully review this information to understand its potential impact on any design, new construction, and R&I work within your stewardship.

Date of Notice: *29 Apr 2010*

Information Title: *Pre-finished Basketball Equipment*

Information:

Attention is hereby called to a recent change to Owner-Furnished basketball equipment (Section 11 6624) wherein the metal components of the support framework will now be furnished to a project with a factory-applied painted finish. Painting of these components should no longer be included in a painting subcontractor's scope of work.

Instructions for Implementation:

Any project already underway with new basketball equipment installation should be reviewed to remove, if necessary, any project cost to paint basketball equipment, including pre-finished equipment that may have already been delivered to the project.

Contact ADP Lemco, Inc. (800-575-3626) to verify the status of a current order.
