SPI No. 68

STANDARD PLAN INFORMATION NOTICE

Architecture, Engineering, and Construction Division

This notice provides new information that may be helpful in your work with the standard plan program. Please carefully review this information to understand its potential impact on any design, new construction, and R&I work within your stewardship.

Date of Notice: *22 Jul 2010*

Information Title: *Access Controls Cost Benefit FM Tool*

Information:

To assist in validating a need for a meetinghouse access control system, a new Access Controls Cost Benefit FM Tool is now available for download off the Resource Library on the AEC Internal SharePoint Site. The tool includes instructions for data entry and interpretation of internally computed results.

Instructions for Implementation:

The tool is accessed from the Resource Library at the following internet address:

https://ldsteams.ldschurch.org/org/pfd/ResourceLibrary/Forms/ByTopic.aspx

At that address, click on: [Topic: Operating Facilities]

and then click on: [Sub Topic: Value Managed Relationships (VMR)]

to gain access to the downloadable Excel file entitled: [Access Controls Cost Benefit FM Tool]

Attachments:

None

Direct any questions to Mark Meyers (801-240-8032 or Mark.Meyers@ldschurch.org)
