

STANDARD PLAN RELEASE SUMMARY (SPR)

MFD/ Architecture, Engineering, and Construction Division

Documents: Church Master Specifications

Release Date: October 2011

Below is a listing of Church Master Specifications with changed Sections and affected Church Building Types identified as part of this Update Release. This list is not intended to be detailed in nature, but is a tool for Project Managers and their consultants to quickly identify Sections changed since the last Church Master Specifications Update. Column headings for affected Building Types are identified as follows:

- C** = Church Education System (CES - Seminaries and Institutes)
- M** = Meetinghouses and Stake Centers
- RI** = Replacement and Improvement (including Operations and Maintenance Services)
- B** = Bishops' Storehouse
- D** = Deseret Industries
- CM** = Church Education System (CES) Module added onto Meetinghouses/Stake Centers
- MO** = Mission Office Module added onto Meetinghouses/Stake Centers

Note: Occurrence of a suffix "s" within Building Type columns for certain Sections and/or Building Types indicates a Supplementary Section, that usually requires approval by a Project Manager for use in a specific project.

Section	Section Name	C	M	RI	B	D	CM	MO	Changes
