IPF-MH-10-04 [300 Chapel Size Meetinghouse]

IPF-SC-10-04 [300 Chapel Size Stake Center]

**Release Date:** April 2012

**Release Number:** 4 (see RELEASE NOTES below)

Summarized below is a list of modifications made to the Standard Plans, which are applicable to the Building Design indicated. This list is not intended to be exhaustive or detailed in nature, but is a tool for Project Managers and their consultants to quickly identify the changes made since the last Standard Plan Update. The Priority Level is intended to identify four levels of implementation for current projects in the late design phase or construction phase. Current projects in the planning phase or early design phase should incorporate all Changes where applicable.

**Level 1 - Essential Priority:** Implement Change even if building is near Substantial Completion;

**Level 2 - Important Priority:** Implement Change even when Change may require minor additional cost - if Change will require significant additional cost or time, Change is left to PM's discretion;

**Level 3 - Standard Priority:** Implement Change at PM's sole discretion.

**Level 4 - Low Priority:** Implement Change as appropriate to phase of project. Change should not affect cost or schedule.

**Level 3\* - Modified Standard Priority:** As directed by an area planning manager, use these new standard plans for meetinghouse and stake center projects.

## RELEASE NOTES:

These new standard plans complete the series of phased Independence meetinghouse and stake center standard plans.

Contrary to normal expectation, this initial release of the Independence 300 meetinghouse and stake center standard plans is intentionally being assigned *Release Number 4* — to synchronize this phase with all other Independence series standard plan phases already in use.

No portions of these new documents are to be used together with any documents of any Heritage standard plan meetinghouse style.
