

STANDARD PLAN RELEASE SUMMARY (SPR)

MFD/ Architecture, Engineering, and Construction Division

Documents: Church Master Specifications

Release Date: September 2012

Below is a listing of Church Master Specifications with changed Sections and affected Church Building Types identified as part of this Update Release. This list is not intended to be detailed in nature; but, is a tool for Project Managers and their consultants to quickly identify Sections changed since the last Church Master Specifications Update. Column headings for affected Building Types are identified as follows:

- C** = Church Education System (CES - Seminaries and Institutes)
- M** = Meetinghouses and Stake Centers
- RI** = Replacement and Improvement (including Operations and Maintenance Services)
- B** = Bishops' Storehouse
- D** = Deseret Industries
- CM** = Meetinghouse/Stake Center with Church Education System (CES) Module
- MO** = Mission Office Module added onto Meetinghouses/Stake Centers

Note: Occurrence of a suffix "s" within Building Type columns for certain Sections and/or Building Types indicates a Supplementary Section, that usually requires approval by a Project Manager for use in a specific project.
